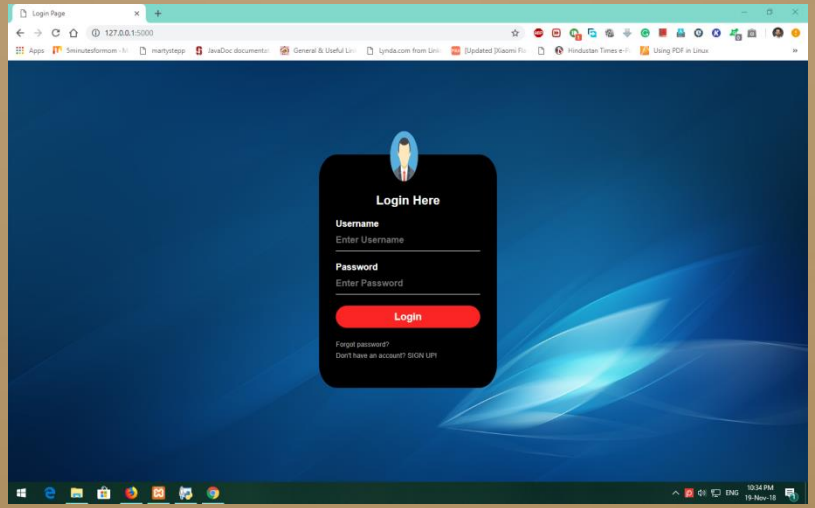
Grocery Mania

Project Background

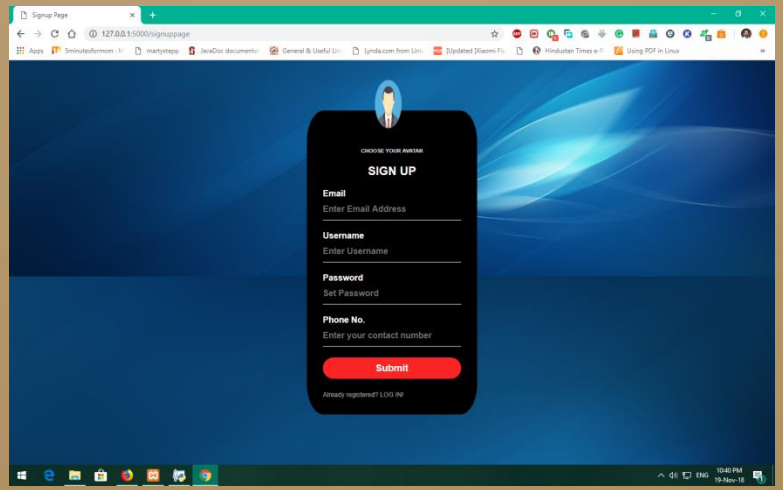
- Our project- "Online Shopping Site", comes under the course, IT Workshop - 3 (Python Lab), (Course Code: CSP 211).
- The project gives real life understanding of Online Shopping.
- We have named our project as: "Grocery Mania".

LOGIN



- Any user can Login to the website through this page.

Sign Up

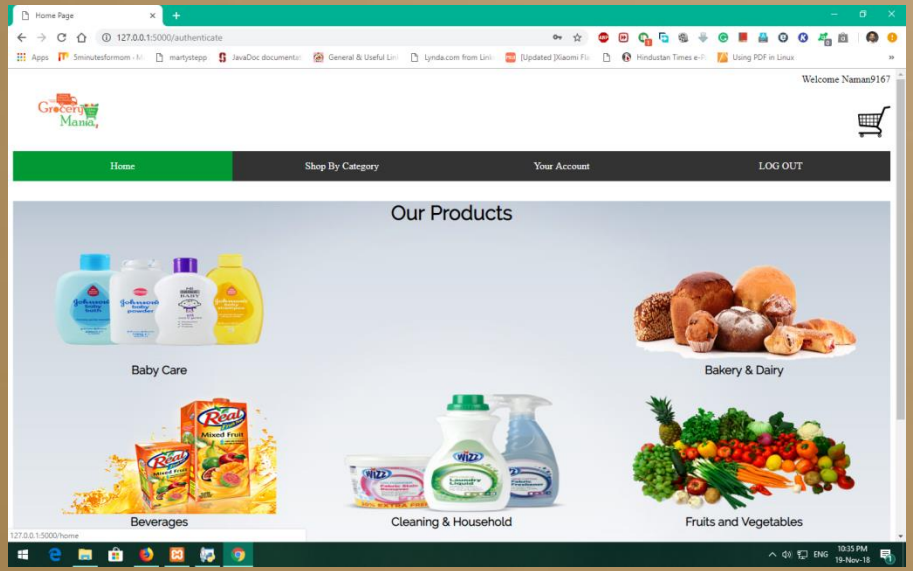


- This is the Sign Up page.
- Any new User can Register and make his/her Login Account.

Successful Registration Acknowledgement

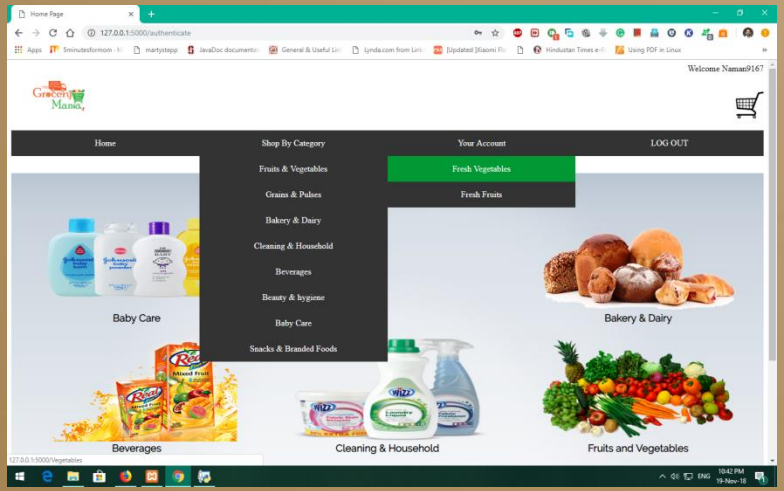
Login Page!

Home Page



- This is the Home Page for the User.
- The Home Page contains various options, such as: View Account, View Cart, Shop by Category etc.

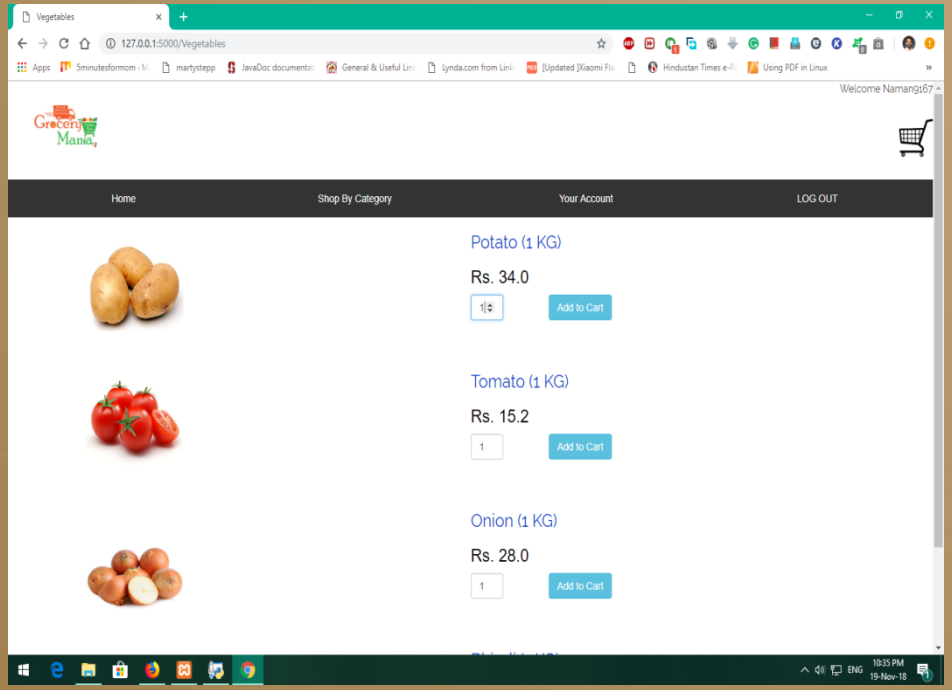
Shop By Category



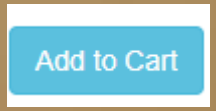
- The ‘Shop By Category’ tab contains various Product Categories like:
  1. Fruits & Vegetables
  2. Bakery & Dairy

  etc.

Product Page

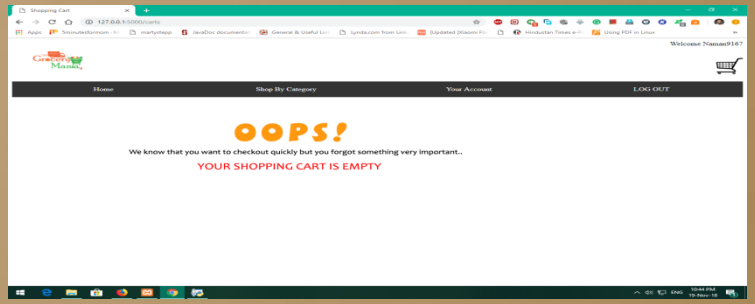


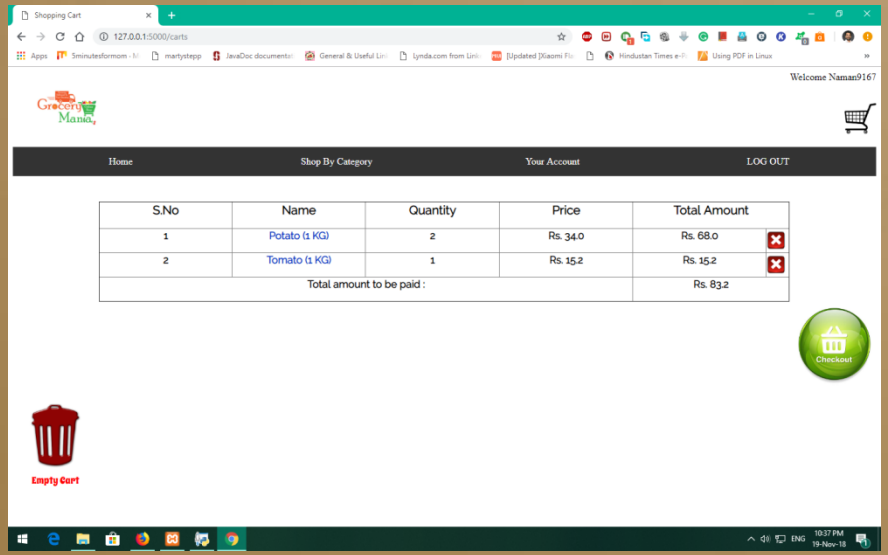
- As soon as the User selects one of the categories, the ‘Product Page’ of that category will open up.
- This page will contain the Quantity & Price of the individual product.
- The User can select the how much he/she wants to buy each product & can add it to cart.



Cart

- The User can view his/her “Cart” by clicking on the Cart icon.
- If the Cart is empty, it will print a message about it.





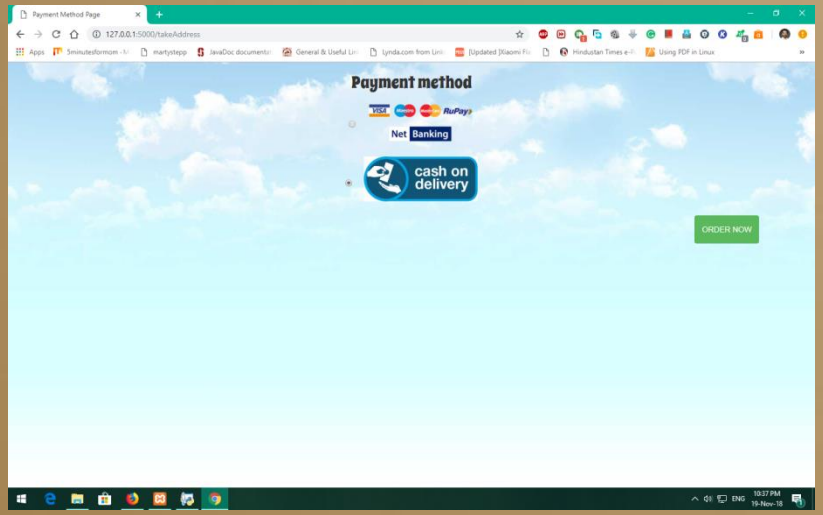
- Otherwise, the Product that have been added so far would be seen along with their Quantity demanded, Price, Total Amount of each Product & the Final price (or the Total Amount to be paid).
- The user will have three options:

1. To cross out an item by clicking on the cross button.

2. To Checkout the Cart & proceed for next step.

3. To Empty Cart or delete all items added so far.

Payment Method

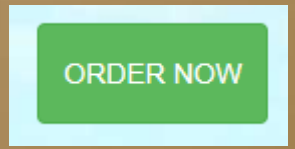


- The user will have two options for Payment:

1. To pay through Net Banking (Visa, Mastero, Master Card or RuPay Debit/Credit/ ATM Card).

2. Cash On Delivery.

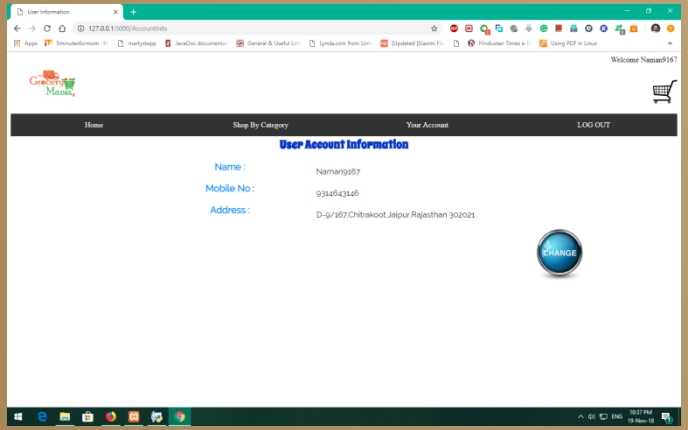
- The user can Order or proceed to next step through the “ORDER NOW” button.



Successful Order Confirmation

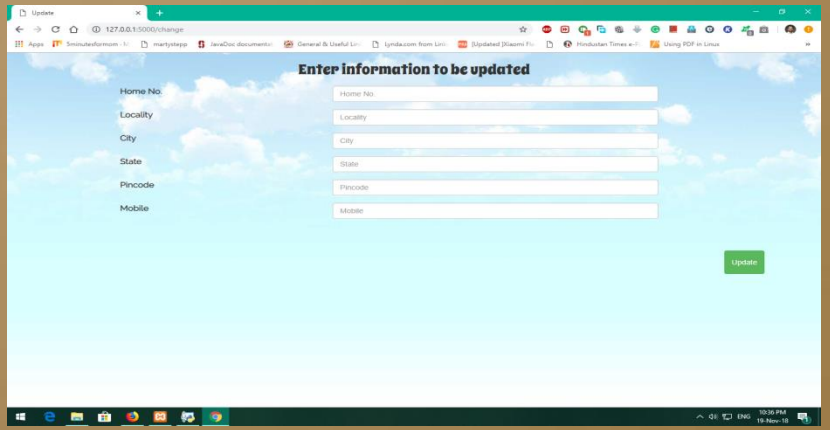
Home Page

User Details

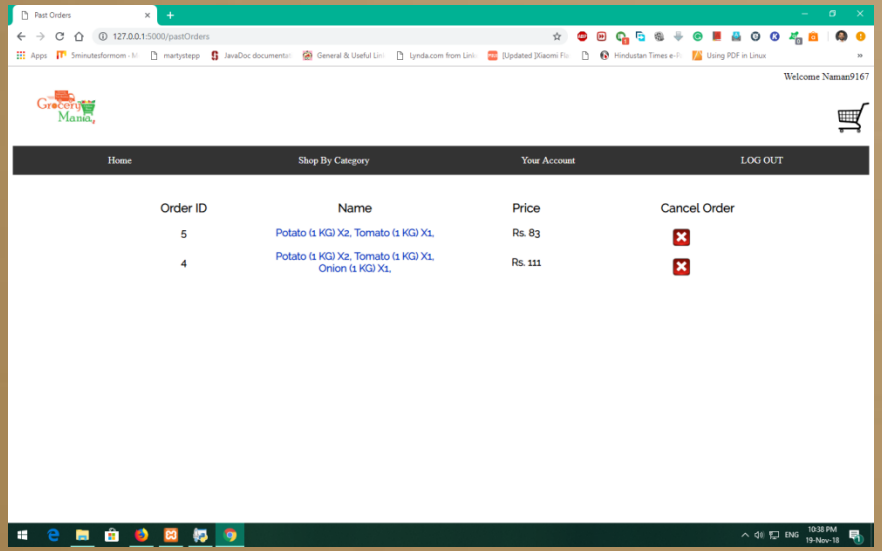


- The User can view his/her Account Details through the “View Account” tab on the Home Page.
- The User can view his/her details, such as: Name (Login ID), Mobile No. and Address.
- He/she can also edit it through the “Change” Button.

- The User can update his/her Address & Mobile No.



Past Orders



- The User can view his/her Past Orders .
- The User can also Cancel respective orders, if not delivered till now.
